CELEBRATING CRAFT

When it was introduced into the Hospitality markets around the world ten years ago, the Craft range was the first to define what the look and feel of the ultimate Artisan-inspired range should be. Craft was designed to tug at the heartstrings by provoking an emotional response to food from both Chef and Diner. Drawing upon centuries of craftsman heritage for inspiration and fusing this with the very best glaze and manufacturing technologies, Craft is a product that looks beautiful with all food types, yet is tough and durable in use in bustling modern restaurants.

The Craft range has grown to encompass several colours over the years. It was conceived from the start to be sympathetic with long-term trends including heritage, authenticity, hand craftsmanship, individuality and eclecticism and these are as important now as they were back then.

Craft Solutions

GLAZE TIMELINE

Glaze research and development has been important to Steelite for at least the past 15 years. Starting with Terramesa, we sensed that the market was changing and there was going to be much more interest in coloured glazes, particularly those with an Artisan look and feel.

What Sets Us Apart

The Steelite International Lifetime Edge-Chip Warranty is your assurance that all products manufactured in our UK factory are fit for purpose. This commitment to quality excellence ultimately results in product that you will replace less often - great for your kitchen, great for your long-term costs and great for the environment.

Our Alumina Vitrified clay body offers our customers the opportunity to purchase sleek and elegant pieces with the security of durability and lasting product excellence. All Performance and Distinction products are made with high alumina content to ensure ultimate strength. 100% Vitrified Ceramics prevent crazing and cracking leading to bacterial ingress over time, thus enhancing sanitation and food safety efforts.

Each piece is inspected, examined and tested so you can be confident it will withstand the rigours of the modern commercial kitchen and remain chip-free.

 **Secure Handle Adhesion**
Every time you serve a customer with a Performance or Distinction cup or mug, relax in the confidence that the handle has gone through 7 different quality checks to ensure it stays where it belongs - on the cup!

 **Stackability**
Stackable shapes result in space-saving solutions!

 **Microwave & Freezer Safe**
Our products offer complete versatility. However you work, be confident our products work with you.

 **Thermal Shock Resistance**
Performance and Distinction products withstand temperature fluctuations of up to 350°F. Work with our products and work with confidence.

 **Heat & Chill Retention**
Piping hot main course or ice-chilled desserts, serve your food as it is meant to be served.

 **Stain Resistance**
All products have great stain resistance, which means you can work comfortably with any food time and time again... without leaving a trace.

 **Glaze Damage Resistance**
Durable transparent glaze provides an excellent quality finish and great performance in service.

 **Dishwasher Safe**
Our products withstand the dishwasher better than most by enduring the rigours of the food service industry wash after wash.

**United Kingdom &
Republic of Ireland**
