Made For Life

The Steelite International Lifetime Edge-Chip Warranty is your assurance that all Performance and Distinction products manufactured in our UK factory are fit for purpose.

All Performance and Distinction products are made with high-alumina content to ensure ultimate strength. Vitrified Ceramics prevent crazing and cracking that lead to bacterial ingress over time, thus enhancing sanitation and food safety efforts. Each piece is inspected, examined and tested so you can be confident it will withstand the rigours of the modern commercial kitchen and remain chip-free. This commitment to quality excellence ultimately results in product that you will replace less often – great for your kitchen, great for your long term costs and great for the environment.

Environmental & Sustainability Practices

Steelite International work closely with a number of suppliers and organisations, and are continually monitoring, developing and improving procedures to create minimum impact on the community and environment, while ensuing maximum efficiency and cost savings for the future sustainability of the business.

Steelite International is a member of The Green Organisation that rewards and promotes environmental best practice around the world, and the Staffordshire Business & Environmental Network, which aims to help local businesses reduce environmental impacts while also generating profits.

We have a dedicated and innovative approach to caring for the environment. In 2019 Steelite were awarded an engineering gold Green Apple Award for the implementation of a waste water centrifuge system.

Our new centrifuge system works by spinning waste material out of waste water at very high speed, the water is separated from waste glaze and then reclaimed saving around 20 cubic metres of water per day. This has dramatically improved the quality of waste water that does leave site. A part from significantly reducing water, it saves glaze and lowers energy usage on site too.

In 2007, the business became one of only five companies in the UK to install a Lamella system. Steelite is the only tableware manufacturer to use a Lamella system for recycling clay waste.

In addition to clay recycling, fewer chemicals are now required to separate waste. This has a positive effect on the environment and water discharged from the site is also purer.

RECYCLING IN EXCESS OF 99% OF WASTE

The Lamella has significantly reduced Steelite International's impact on the environment. The company now recycles in excess of 99% of manufacturing waste. In 2010 we received a Green Apple Award for the Lamella project.

ASMA KHAN FOUNDER • ***Darjeeling Express, London UK*** • First British chef to be featured on Netflix's Chefs Table • Author of The Times Cookbook of the Year 2022, Ammu: Food to Nourish Your Soul, from a Life of Cooking

Darjeeling Express started as a dinner for 12 guests at home, serving Indian food lovingly cooked from family recipes that go back generations. Though the restaurant has changed and grown over the years, Steelite have been there every step of the way. "Bringing a dish to the table is a very personal thing. It presents your entire brand so it has to be beautiful and meaningful. It's been a huge difference to work with a company so big but they came across so personal. That's the real achievement of Steelite, and for me, that's the art of customer service."

SIMON HULSTONE CHEF PROPRIETOR • ***The Elephant, Torquay UK***

Run by chef proprietor, Simon Hulstone and his wife Katy, The Elephant was the first restaurant in Torquay to be awarded a Michelin star & the only one to retain it. Which it has maintained Since 2006. The restaurant offers a delicious à la carte menu and set menus featuring fish, meat and vegetables all sourced locally from the surrounding area. All dishes served at The Elephant change regularly depending on the locally grown and reared ingredients that are best. Many of these are sourced from their dedicated farm. "I've been working with Steelite for 20 plus years and not once has Steelite sat still, every season a must have range has been designed that sits perfectly with my restaurant, my food and my customers."

PETER BRADLEY DIRECTOR OF FOOD AND BEVERAGE • *The Westin London City, UK*

Opened in 2021, The Westin London City hotel boasts an impressive riverside location and spectacular views over London's historic River Thames. Carefully designed with sympathy for local elements, every detail of this spa hotel has been curated to ensure customer experience is of the highest level. This includes the F&B offerings, whether it be in Hithe + Seek, a stunning wine bar with panoramic London views, or Mosaic, the convivial all-day dining restaurant. "I think the Art of Presentation is an excellent way of describing it because presentation is an art. It's not just about sitting down and having food or drinking a cocktail. It's about what it's served on. The reason we went with Steelite is because they proved themselves to be the best."

MICHAEL D'ANGELO HEAD PASTRY CHEF • *Louie London, UK*

Louie London brings an injection of refined glamour and electric ambiance to the centre of London's high-class and glitzy Covent Garden, serving a bountiful selection of mouth-watering cuisine that's every bit as brilliant as its style. "For me, tableware is like a white canvas where I can express my creativity. I love having options and picking the perfect plates or vehicles for my desserts. The shape, the colour, or the pattern can completely change the perception. Everything is carefully thought out. I don't want that our guests just eat a dessert; I want to give them a full and unique experience involving all senses."

IACOPO VANNINI CHEF PATRON • *Restaurant Villa Garzoni, Collodi Italy*

The restaurant Villa Garzoni can be found in Collodi, the province of Pistoia revealing a perfect blend between the Tuscan traditional flavours and the innovation of contemporary cuisine, in a picturesque location. “There are moments in life when you meet someone for the first time and you feel you already know them. When I saw Steelite for the first time I was speechless, I knew I had found what I was looking for. I will continue to use Steelite for the rest of my professional life.”

MASSIMILIANO MASCIA HEAD CHEF • *Ristorante San Domenico, Italy*

Opened in Imola in 1970, San Domenico had earnt its first Michelin Star in 1975, shortly followed by its second in 1977. Right from its beginnings in the 1970s, the San Domenico took a whole new approach to the restaurant business which had, until then, simply been seen as an alternative to the domestic model. “At the Ristorante San Domenico of Imola, the kitchen has close ties to the land, it is a place where we seek out the best ingredients, grown under the best conditions; it is a place of constant evolution, where new techniques are at the service of tradition.” “As I see it, respect for ingredients and their seasonal freshness is essential as it lays the foundations for further research and innovation of preparation techniques”.

GENI PERRAMÓN CHEF • *The Tavern of the Gourmet, Alicante Spain*

The Tavern of the Gourmet is a space where innovation is at the heart of service. Organic and traditional flavours, succulent tapas and montaditos, and salted cheese are prepared in a lively bar using the highest quality ingredients. The Tavern of the Gourmet is an example of the basic pillars of good cuisine: the best products, nice, comfortable space and professionalism. A gastronomic space that you must stop and visit. “Steelite is synonymous with bringing elegance to our tables. Excellent durability and service from the factory, also a lifetime edge chip warranty gives us peace of mind.”

BRIAN LANDRY CHEF/OWNER QED HOSPITALITY • *The Kitchen Table Clermont, KY*

Our restaurant, The Kitchen Table, is located on the Kentucky Bourbon Trail. When opening our restaurant, we wanted pieces that were upscale and comfortable, pieces that would highlight the nature of the Bourbon Trail. The Steelite products we selected are the perfect balance between high-end quality and comfort.

JARED TEES EXECUTIVE CHEF • *L'Auberge Casino & Hotel Baton Rouge, LA*

Steelite always has something fresh on the horizon, and the collaborations with artists allow me to create a beautiful experience for our guests. The variety, from high end to casual and for specialties like Asian and sports bars, has enabled us to use it exclusively across multiple concepts. I appreciate that continuity, as well as the quality, pricing, and reliability. Working with the same reps over the last decade has also made this part of my job joyful.

KIMBERLY LALLOUZ CHEF • *Restaurant Monsieur Montreal, Quebec*

Steelite is everywhere around me – it's in all of my restaurants, in most of my photoshoots, and even my #1 choice for international competition plates. From Birdbar's laid-back fried chicken and champagne comfort dishes to Restaurant du MAC & Monsieur Resto+Bar more delicate and soignée plates. I love the variety, durability and look of the brand; there's something for everyone from the various lines that are offered. Customer service and client support are bar none, so it's a true pleasure for me to work with the reps and products alike every season.

a daring pattern for a dramatic presentation

Koto, one of Steelite International's most unique ranges, was designed in collaboration with world renowned chef, David Kinch. The inspiration was drawn from ancient Japanese Tenmoku Glazes. These beautiful glazes vary subtly in texture and tone from piece to piece, embodying the craft of the traditional potter. The pieces are hand finished with a rich iron red glaze, which interacts in the kiln to produce a warm, organic, lustrous effect. The deep black textured surface allows food to be perfectly framed, adding drama and contrast to your presentation.

nuanced artisan experience

Using reactive glazes that change in colour and intensity depending on their application, Revolution glazes are specially formulated to enhance all the nuances experienced in their execution. Applied by hand using a revolving motion, the path the brush travels across each piece is evident in the fired result. The glazed surface of each piece in the range is as different and unique as the artisan that created it. This provides an ideal platform for Chef to showcase their art, no matter what the cuisine style.

The use of hand-applied reactive glazes on Revolution Edge frames food beautifully, allowing for a slightly more formal approach to relaxed presentations. Revolution Edge allows food to be presented on a clean white platform complemented by a contrasting colour field. This has the effect of highlighting Chef's creativity, allowing it to speak for itself.

Revolution Edge can be used as a single colour presentation or mixed and matched freely with others in the range. It also co-ordinates beautifully with Revolution for a more casual and easy-going style.

beautifully fractured linear patterns

Crackle patterns have a long and distinguished history going back millennia. Crackling occurs when the glaze does not fit the clay body of the ware correctly, causing it to fracture into beautiful linear patterns, covering the entire surface of the glazed piece. Available in two colourways, Black and Grey. Crackle will add texture and nuance to casual and contemporary food presentations and is aesthetically compatible with both plain white and many of our craft inspired ranges.

heightened senses, amplified presentation

Urban appeals to a sharper, city aesthetic where food is still tied to the traditional values of honesty, integrity and authenticity, but requires a slightly more formal, more defined and refined presentation style. Emulating a concrete look, Smoke is a new collection of tableware that takes its inspiration from the aesthetics associated with the act of cooking. The subtle and nuanced tones of grey contrast with the darker reactive elements to mirror the effects of browning and searing, creating a connection between the food and the plate.

SMOKE: 1208

Craft is inspired by hand-crafted, simple country wares made by generations of potters over hundreds of years. The range embodies the beauty of rich, lustrous glazes applied by hand, and celebrates chance effects and reactions which occur naturally in the kiln. The gem-like glazes married to simple forms and shapes produce a unique and individual appearance, giving Craft a rustic "joie de vivre".

When Craft was introduced into the Hospitality markets around the world ten years ago, the Craft range was the first to define what the look and feel of the ultimate Artisan inspired range should be.

crisp, timeless, and elegant styling

Bead defines a classic approach to dining, one which embodies best practice for back of the house ease-of-use while delivering beautifully presented dishes to delighted diners. This range consists of two elements: Bead and Bead Accents, which can be mixed for a personalised collection. A classic linear design is carried across the main collection of Bead items, while the Bead Accents component offers an alternative decorative style to key presentation items alongside the classic iteration. The Bead Accents decoration provides a contemporary element that adds texture and visual excitement. With a strong selection of plates, bowls, beverage, and hollowware, the Bead range is suitable for a range of concepts, including casual, upscale, banqueting and buffet.

The addition of a hand-applied wash of colour to the Bead range provides a subtle but refreshing accent. This softens the look and adds a casual approach to the way Bead presents food. Classic, timeless, and perfectly proportioned, the Bead range takes on a Scandinavian feel in either the truffle or sage colourways and works brilliantly in either a traditional or contemporary setting.

This collection has been created in collaboration with two-starred Michelin chef Brett Graham. The rimless design means there's no visual distraction from the finest cuisine, while the frosted edge prevents finger marking as the plate is set down on the table. Extra weight has also been added to the centre of each plate, to optimise retention of heat or cold.

Extra style with oval dishes and teaware shapes. The Connoisseur Teapot has been specifically designed to be utilised with the finest quality teas and avoids over brewing when combined with the Teapot Infuser. The exacting capacity means that once the first cup is poured, the remaining water level drops below the level of the tea leaves in the infuser and hence avoids over brewing.

ATELIER

RENE OZORIO *atelier* **NEW**

"in praise of shadows" ~Jun'ichiro Tanizaki

Atelier: the name evokes the hand of craftsmen and the tradition of artisanal fabrication. The realisation of this fluid optical design was through the collaboration with artisans, who hand carved the models for each piece. The calculation of the embossment and the glazing produces an effect of ebbing water in the tide pools. Designed with fine dining in mind, the lightness in weight and porcelain colour speak of quality and craftsmanship.

"Atelier is inspired by nature, light and shadows. I was reminded of the days by the sea, watching the changes in the sand & pools of water brought by the ebb & flow of the tides. The element of water in motion." ~ Rene Ozorio

ROBERT GORDON *forager* NEW

handmade & organic appeal

Forager by Robert Gordon is designed with a carefully applied reactive glaze that free-flows over each shape to create a unique finish that is different on every piece. Featuring an unglazed bottom, this collection highlights the richness of raw materials through exposed stoneware and offers a handmade & organic appeal. From the creator himself, Robert "Andy" Gordon, he compares the signature tray design to "tree bark once used to gather things such as forage seeds, berries, and roots from the forest", hence its namesake, Forager. Unlike any other, these enduring & functional shapes are finished with a stamp of Andy's handwritten signature and will enhance any foodservice presentation.

The elegance and feel of glass, but virtually unbreakable. The beverageware of choice for some of the world's most prestigious hotels and resorts.

beautifully elegant
All Strahl products are made of a high quality polycarbonate, a remarkable material that creates the clarity and elegance of glass. What's more, every product is hand finished to remove manufacturing join lines. The result? Beverageware that's beautiful to look at, and equally beautiful to drink from.

exquisitely versatile
With Strahl, it's possible to entertain in style, anywhere. Our exquisite products are designed to be chilled in either the refrigerator or freezer, while superior insulation properties keep beverages at optimal drinking temperature for longer.

incredibly strong
Unlike glass, Strahl beverageware doesn't shatter so it's an extremely safe and long-lasting alternative. Not only is it stronger, no Strahl product is complete until it has undergone a unique finishing process to extend its lifespan and durability.

ROBERT WELCH *sandstone* NEW

Sandstone cutlery by Robert Welch, features a unique ‘stippled effect’ which adds texture and tactility to the handles. Our Designers have added a subtle feature, by incorporating a gradual fading of the texture into the neck of each piece. Sandstone is a slender pattern and has a comfortable, ‘soft feel’ in the hand.

The beautiful surface reflects the light with a gentle glow, creating a statement on the table alongside both formal and casual tableware.

candlelight without the melted wax mess

Liquid candles from Hollowick are the ideal choice for lighting up the tabletop. These liquid fuel cells burn cleaner than solid wax candles and are disposable, making clean up quick and easy without the melted wax mess. Available in a variety of sizes, a strategically chosen liquid candle will sit low inside a table lamp in order to illuminate the colours or beauty of the lamp itself. With a burn time that is twice that of a standard tealight, Liquid Candles from Hollowick are staple for those restaurants & hotels looking for the elegance of live flame.

proper use of liquid candles

In order to illuminate the colours and beauty of a lamp, select a liquid candle that sits low within the lamp, and does not touch the sides.

D.W. HABER *touchless tap*

reducing the spread of germs

Pouring a cup of coffee or juice just got easier with D.W. Haber's Touchless Taps. Simply press a cup against the dispenser to activate the flow and pull away once filled. The Touchless Plus is hands and drip-free, and its wide body targets the side of the glass and not the rim, which ultimately reduces the spread of germs. Made of 18/10 stainless steel, the spouts are resistant to rust and fit any D.W. Haber urn or juicer on self-serve stations and buffets.

chafing dishes at a phenomenal price point

We are pleased to bring hydraulic closing chafing dishes to the Creations collection. Each chafer has a convenient large glass view in the cover in order to increase visibility of the food while minimising the times the lid is opened, therefore keeping the heat in and the food at proper serving temperature. Additionally, the easy-to-remove hydraulic lid closes on its own to ensure that food is kept safe and covered during service. Great for any buffet display, these chafers are induction capable and perfectly priced for even the most value-conscious operators.

care & use instructions

Seventy percent of product damage/loss occurs at the dishwasher table. To avoid such damage, ensure that the dishwasher table has sufficient space to store dirty items and avoid overloading trays or trolleys.

All items should be separated into type prior to washing. All washing equipment chemicals should be maintained and checked regularly. Check stock often; storage facilities should allow for stock rotation to prevent overuse.

- Should be washed within 45 minutes of removal from the table and pre-rinsed
- Avoid contact between china, dinnerware and metals
- Abrasive cleaning aids should not be used, i.e. scouring pads, steel wool, etc.
- Minimise handling to reduce glaze abrasion
- Do not stack more than 15” high
- Do not slide items across each other to reduce abrasions
- Be sure to rotate your stock to prevent uneven wear
- Only stack product that are designated stackable

- Use warm, soapy water or a neutral dishwashing liquid for cleaning
- Dry naturally or with a soft cloth after hand washing; we recommended using a microfibre cloth to preserve clarity
- Product can be used normally between temperatures of -30°C and 110°C (-22°F and 230°F)

- Wash knives with warm water and a mild detergent, rinse well and dry thoroughly
- Not recommended for high temp dishwashers that exceed 167°F / 75°C

- Wash knives with warm water and a mild detergent, rinse well and dry thoroughly

BLADE SHARPENING

- Serrated blades cannot be sharpened
- Blades with no serrations can be sharpened as needed
